## > Ship's Ahoy! | Mega Yacht Transport

### Job Specs

**Weight:** 1100 Tons

**Dimensions:** 198'L

**Equipment Used:** 40 lines of SLE SPMT's

Precious cargo? This is it.

When a custom yacht builder needed this 1100 ton, 198', \$60+ million dollar mega yacht moved into position for launch, they put their trust in Berard. The move was handled with ease, on time, and on budget, making this vessels first move a great one! While on the job, the Berard Team also moved two massive tugboat hulls into position for the next phase of construction. One of many Berard specialties!

Ship's Ahoy!

On The Road Again!

# Tower Transport

## Job Specs

**Weight:** 80,000 Lbs

**Dimensions:** 101'L x 8'Diameter

**Equipment Used:** Trail King self steering four axle dolly and three axle Peterbilt.

The Berard Team transported this 80,000lb, 101' long, 8' diameter, tower from Satsuma Alabama to Taft Louisiana. The trip went smoothly with very little traffic interruption. The tower was transported on a Trail King self steering dolly located at the rear and a saddle at the front which mounted onto the truck's fifth wheel and served as the pivot point. Another over the road job completed safely and successfully, just the way we like it.

# Darryl Doucet

Driver/Rigger/Level 1 Operator

Darryl Doucet | Driver/Rigger/Level 1 Operator

Darryl joined the Berard team in November 2009 and brings several years of cross country driving to the team. He's driven in cities as New York, Los Angeles and just about every place in between.

Darryl loves to drive trucks, but that's not his only strong suit. He's also a great SPMT operator who loves his job and the people he works with. "I just love this type of work and the people here" he says, and it shows in his dedication and desire to see the Berard Team be the best in the heavy transport field.

Darryl is the proud father of Jordan and Jacob and enjoys spending time with them.
