# Ships Ahoy! Moving the Al-Kat

## Job Specs

**Weight:** 1,115 Tons

**Dimensions:** 211'L x 48'W

**Equipment Used:** 40 lines of SLE SPMT's, 8 high capacity barge ramps.

Not even a downpour could stop the Berard Team!

When the clouds opened up and let loose, the team members kept the nearly twelve hundred ton offshore supply vessel rolling along as scheduled. The vessel was transported from the fabricators shop to a waiting drydock for launching after final completion at a later date. The move involved maneuvering the vessel out of the shop and executing a forty-five degree turn to line up with the drydock.

The job was smooth as can be thanks to the efforts of the team members and therefore chalking up another successful project for the team!

# RICA Show Report

## Portland Oregon

The Berard Team once again exhibited at the Rail Industrial Clearance Association conference this year in beautiful Portland, Oregon. Enjoying the company of fellow industry members as well as the mild 75 degree daytime highs was very enjoyable for the group. Even though the highlight of the trip may have been trying to move a 1.5 ounce golf ball, the video display of Berard's recent projects over the past year surely drew a few inquiring visitors to the booth. The Berard team certainly enjoyed the company of fellow industry personnel as well as clients and vendors, and look forward to next year's conference in Mobile, Alabama. Thanks to everyone who stopped by to say hello, see you next year!

# Seth Babineaux

**Driver/Rigger/Level 2 Operator**

Rejoining the team in June of 2010, Seth had previously been with Berard for three years. After being offshore he realized that Berard was where he wanted to be. "I like working with the team at Berard, and I really like being home more instead of being offshore". He's a great spmt operator and driver and we're glad to have him back on the team.

In his off time, Seth enjoys spending time with his family, hunting, fishing and riding four wheelers. Seth is also going to be a proud new father sometime in January and we all wish him and his wife Kali the best on the future arrival, or like Seth puts it "the bun in the oven".

# Happy Birthday!

**From The Berard Team**

**Berard sends our best Happy Birthday wishes to these dedicated Team Members this month:**

- > **Roy Courville**
- > **Rogers Courville**
- > **Brady Judice**
- > **Ken Beard**
