# 3,975 Ton Deck Loadout

## Job Specs

**Weight:** 3,975 Tons

**Dimensions:** 181' L x 107' W

**Equipment Used:** 52 axlelines of ESE SPMT's, 64 axlelines of SLE SPMT's, loading ramps and high volume water pumps.

When a client needed to loadout this newly restored 3,975 ton offshore platform, the Berard Team got the call. The massive four pile platform was loaded out using a total of 116 axlelines riding on a total of 720 tires. Everyone involved worked hard to ensure the project was carried out safely as the load inched its way onto the deck barge to it's final position for securement. After the loadout was complete, more work has to be done to the platform before it makes its way back to work in the Gulf of Mexico. The Berard Team would like to thank all involved for making this yet another success story for our company. Your hard work and dedication is appreciated and thanks for making Berard the best it can be!

# One Big Barge Job

## Job Specs

**Weight:** 420 Tons

**Dimensions:** 224'L x 42'W x 10'H

**Equipment Used:** 24 axlelines of ELE SPMT's

Texas was the place to be for this big barge project. The Team transported this 420 ton, 224'L x 42'W x 10'H chemical barge from the fabricator's shop to it's place along the water's edge for final fabrication and launching at a later date. The move involved rolling straight out of the shop, then making a 90 degree turn to bring it into it's final position. Berard used 24 axlelines of ESE transporters to accomplish the task and once again, it was a safe and successful job with a happy client.

# Tim Wilson

## Branch Manager

Tim Wilson | Mobile, AL Branch Manager

To have a great company, you have to have great people. That's where Tim Wilson comes in. Joining the Berard Team in October of 2011, Tim has taken the reigns as Branch Manager of Berard's Mobile/Theodore, Alabama location. He brings over 20 years of transport, crane and rigging experience to the team. Tim says about working with the Berard Team "I am proud to be a member of the Berard family. This is a great company that is growing and well respected in the heavy transportation industry and the guys here are hard workers". Tim is married to his wife of over 14 years Tomi Lynn and have one daughter Lindee. In his spare time he enjoys hunting, fishing and golf.
