# The 2,400 Ton Deck Load Out

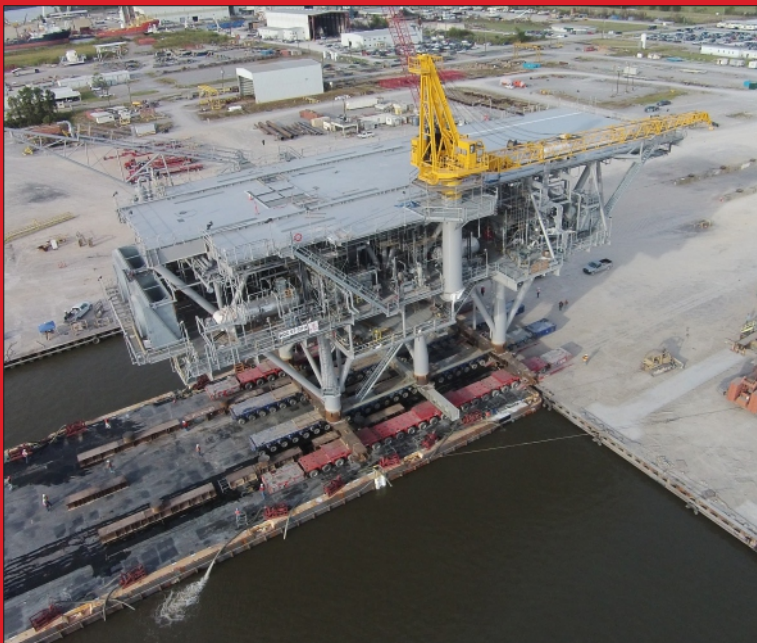

## Job Specs

**Weight:** 2,400 Tons

**Dimensions:**  
114'W x 219'L

**Equipment Used:**  
104 lines of SPMTs, loading  
ramps, high volume water  
pumps.

In last month's issue we featured a colossal jacket loadout and this month we feature the deck that will accompany it. The Berard Team used 104 axle lines of SPMTs to load out the massive 2,400 ton offshore deck from the fabrication area to a deck barge that will transport it to its meeting with the jacket offshore. Slow and steady was the name of the game and the team performed as planned and with safety in mind while the load moved onto the barge and into position for final securement for water transport. Once again, thanks to all of our team members for making this project another great one!

# The Vessel Transport

## Job Specs

**Weight:** 160,000 lbs

## Equipment Used:

13 axle lowboy trailer

Berard Transported two 160,000 lb. desalter vessels from a fabrication shop in Louisiana to a heat stress facility, then back to the original fabrication shop two days later. Our new 13 axle lowboy rig was perfect for the job. With up to 60' of deck, and full steering capabilities, this trailer can maneuver into the most congested areas, while keeping the load as low as possible over the road to avoid overhead restrictions. This trailer also features a 10' width to ensure your cargo rides on the most stable equipment available.

## Workboat Show

The 2014 International Workboat Show was in full swing and the Berard Team was there to showcase our shipyard transport capabilities to the many attendees. The show was held in New Orleans at the Ernest Morial Convention Center. The team had a great time entertaining guests who stopped in to visit. The team also held a great reception at the Hilton as a thank you to our customers for their commitment to Berard. We look forward to next year's event and we hope to see you there!

## PowerGen Show

The Berard Team jetted to sunny Florida to exhibit at the International Power Gen Show in Orlando. The show was well attended by power generation industry professionals from around the world and many stopped in to visit the Berard booth and watch our videos as well as speak about the many new projects coming in 2015. The event was held at the Orange County Convention Center and the three day event gained some great exposure for the Berard Team.

## IDF Holiday Party

Holiday cheer was in the air as members of the Berard Team attended the Iberia Industrial Development Foundation's annual holiday party. The IDF is an organization that helps promote our area to attract businesses to locate here and grow our thriving economy. A great time was had by all!

# Merry Christmas

From The Berard Team!

The Berard Team is thankful for another successful year and is blessed to have grown by leaps and bounds. We reflect upon this past year as a great one all made possible by our dedicated team members who strive to keep Berard at the top. We're also thankful for each and every one of our amazing clients who have supported our company over the years. We look forward to many more. We thank you.

May you and your family enjoy this holiday season and have a blessed and a very Merry Christmas and a Happy New Year!

Sincerely,  
The Berard Team

The Berard Team honored some of its team members at our annual Christmas party. Thanks to all of our great team members!
