The Berard Team is proud to once again take part in launching another great asset for our US Navy. The team loaded out another 2,200 ton Joint High Speed Vessel (JHSV), named the Brunswick, in Mobile, Alabama. The team transported the JHSV from the client's final assembly bay to a deck barge. Once secured on the barge, it traveled down river to be trans-loaded. Once at the transfer point the trans-loading of the JHSV onto the Alabama an 800' floating drydock, began. As usual, the trans-load went smoothly thanks to all involved. Through hard work and dedication, the job was completed safely and successfully.

# Safety Excellence Award

The Berard Team attended the 28th Annual Safety Excellence awards and was one of three finalists in the Crane & Rigging Support Small category and was awarded the Silver Award. Out of 76 nominated and audited companies, 49 were selected as 2015 HBR Safety award finalists. Those 49 finalists were separated into 14 different categories. Over 100 Houston area companies were represented with 1,400 people in attendance. This award was a direct result of our team's dedication to working safely on every job we do!

# Harley Mitchell

Driver | Rigger

Joining the team in May of 2011, Harley has been full speed ahead when it comes to advancing his career at Berard. He's eager and hard working and is always ready for the next challenge. Harley follows in his dad's footsteps who worked for Berard for many years before retiring.

"Since I was knee high, I've always been fascinated with heavy equipment and machinery. Being able to operate them everyday is even more fun. Working with the people who watched me grow up from a kid is what I love most. It makes me feel like close family" says Harley.

Harley loves working and riding on motorbikes, enjoying quality family time, & angel food smoothies from Smoothie King!
