# Another Module Hits The Gulf!

## Job Specs

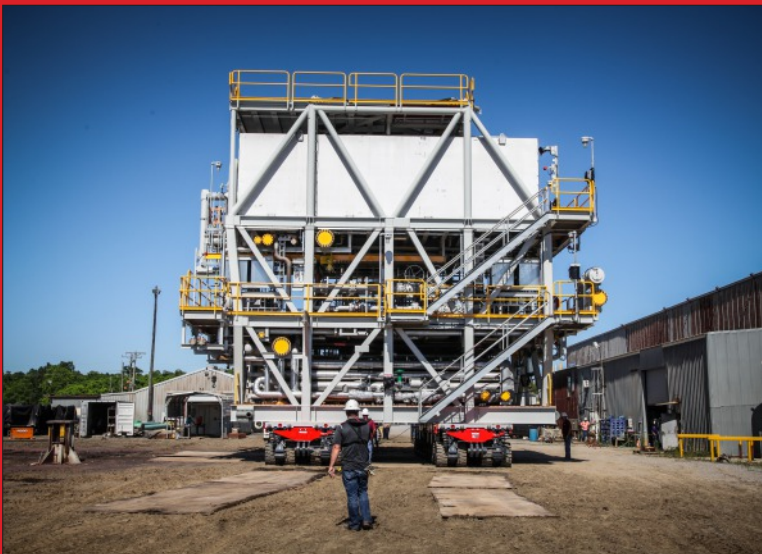

**Weight:** 285 Tons

**Dimensions:**  
45'L x 34'W x 36'H

**Equipment Used:** 16 axle lines of SPMTs, 2 power packs, loading ramps, steel plate, water pumps and winch trucks.

This 285 ton module bound for the deep waters of the Gulf of Mexico was a cakewalk for the Berard Team. The module was transported on 16 axle lines of Scheuerle self propelled modular transporters from the fabrication site to a waiting deck barge. Ground conditions were unfavorable so the team laid steel plate to help distribute the load and ensure a smooth transport through the fabrication yard. Once at the bulkhead, the team slowly rolled the module onto the barge where the maneuverability of the SPMTs really shined in the final positioning of the module on to stands for its final voyage to the installation site.

Power Up!

# Transformer Replacement Project

## Job Specs

### Weights:

266,000 lbs. Old Units

189,000 lbs. New Units

### Equipment Used:

6-axle Goldhofer PST-SLE, 300 ton slide system, 400 ton low profile slide system, jacks and unified jacking systems

Time to change out a transformer means time to call Berard. This old transformer at a substation in Arkansas was removed by the Berard team to make way to allow a new unit to take its place. The team mobilized to site, slid the old unit onto a 6-line SPMT, moved it to a dismantling area, and jacked it down. The new unit was then received from a rail car one mile away, slid onto the SPMT and transported to site and then finally set on the pad. On the job was our new 400 ton Hydra-Slide low-profile skidding system. All components of this system can be handled by hand, reducing assembly and disassembly time in congested areas.

## Team BERARD

2016 11U

Team Berard is an 11U select travel baseball team that played in 13 tournaments and won 25 games in the 2015-2016 season. The season included one championship, one second place and numerous top five finishes. Tournaments ranged from League City, TX to Gulf Shores, Alabama, with Team Berard reaching the final game before the 2016 World Series, losing only to the eventual champion of the Series. Our own Braedon Berard manages these talented young men that are 11 years old and younger and comments "It's my favorite hobby and something that I really love doing. I feel that if a person can give back to our future, he should do so anytime and any way that he can. We at Team Berard are not only teaching these young men the game of baseball but also about life and how to grow up and be the best person they can be".

Team Berard 2016-2017 roster is already set and we can't wait for another successful season. We are very proud of this organization's success after its inception just two years ago. Geaux Team Berard!

## > Team Member Spotlight

# Amanda Hebert

## Business Development

Joining Berard in January of 2014, Amanda Hebert became a valued member of our business development team immediately. She came to Berard with years of experience in sales and client relationship skills. Since joining the team, she's been a great asset to our company.

Amanda handles all of our Louisiana territory as well as assisting the rest of the sales team any way she can. She's a real team player.

"I really enjoy working for Berard and I'm very fortunate to work with some great team members as well as our great clients," says Amanda.

Amanda has three children—Michael, Colin and Emma. She enjoys attending Michael & Colin's football games as well as Emma's dance classes, spending time outdoors and visiting new places.
