The Shipyard Moving Carson City

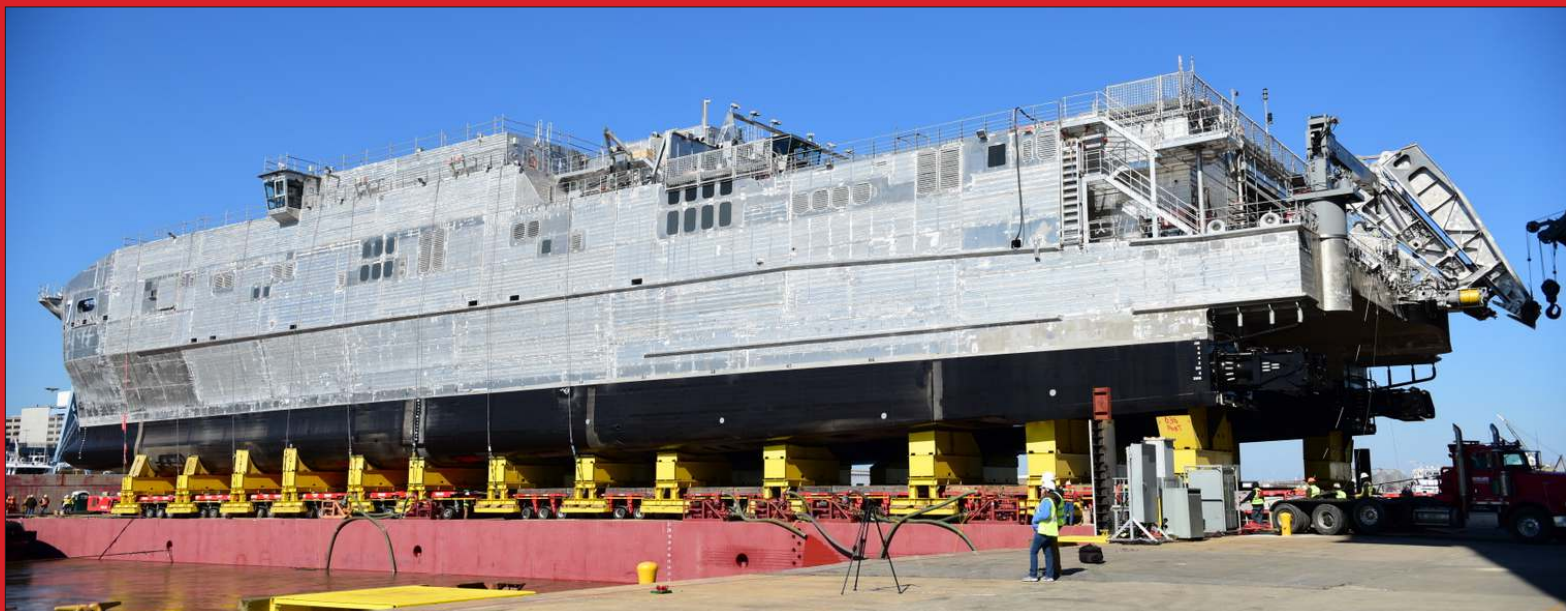

Job Specs

Weight: 2200 Tons

Dimensions:
330'L x 94'W x 105'H

Equipment Used: 106
axle lines of SPMTs, 4
ppus, loading ramps, high
volume water pumps and
winches for barge
securement

The Berard Team is proud to once again take part in launching another great asset for our US Navy. The team loaded out another 2,200 ton Joint High Speed Vessel (JHSV), named Carson City. The team transported the JHSV from the client's final assembly bay to a deck barge. Once secured on the barge, it traveled down river to be trans-loaded. Once at the transfer point, the trans-loading of the JHSV onto the Alabama, an 800' floating dry dock, began. As usual, the trans-load went smoothly thanks to all involved. Through hard work and dedication, the job was completed safely and successfully.

On The Road

The 107' Vessel Transport

Job Specs

Weight: 135,000 lbs.

Dimensions:
107'L x 18'6"H

Equipment Used: 9 axle
Faymonville Highway
max trailer

At over 140' long and 18' 6" high, proper planning was essential in transporting this 135,000 lb. vessel from Northern Mississippi to Sulphur, LA. Berard utilized a nine axle Faymonville Highway max trailer for the project, allowing the load to easily steer around corners, all while providing maximum stability. Berard provided full engineering services to confirm adequate trailer capacities, securing details, turning radius, and height clearances. In 3 days, the team traveled over 500 miles to the destination, right on schedule as usual.

Show Time!

Berard @ Topsides!

The Berard Team will be exhibiting in the Topsides Platforms & Hulls Exhibition on February 9-11, 2016. The annual event is held at the Moody Gardens Convention Center in Galveston, Texas. Topsides, Platforms & Hulls Conference & Exhibition is the offshore industry's only event dedicated to the topsides, platforms and hulls for both deep and shallow water. A comprehensive technical program presented concurrently with an exhibition, Topsides, Platforms & Hulls Conference & Exhibition covers the design, engineering, construction, transportation, installation, and modification of topside structures, platforms and hulls.

The sales and marketing team will be on hand to showcase our great company and we look forward to meeting you! Stop by our booth, #901, and see what our company can do for your next project!

> Team Member Spotlight

Cruz Stansbury

Leaderman

Joining the team in March of 2013 as a rigger, he quickly moved up to operator and currently holds the position of Leaderman. Cruz is a very dedicated team member and is always looking out for the team.

“Berard has been one of the best jobs anyone could ask for and has been very understanding of my returning to military. I joined the U.S. Army Reserves in May of 2014 and in October 2014 left for Drill Sergeant School. Berard was more than willing to honor and support the armed forces and made a flexible schedule for me. In December of 2014, I returned to work and hit the ground running. In September of 2015, I was involved in a motorcycle accident. Berard, once again, did not hesitate to show their support and is helping me with whatever I need, especially by allowing me to return to work once I have made a full recovery” says Cruz.

Cruz is the father of 3 great sons - Cruz Jr. - 11, Kaiden - 9, and Jacob - 5.

> Birthdays @ Berard

Happy Birthday!

From The Berard Team

Berard sends our best Happy Birthday wishes to these dedicated Team Members this month:

**Braedon Berard
Dan Alexander
Lacy Comeaux
Cruz Stansbury
Shane Tauzin**
