# Load Out! Module Load Outs

## Job Specs

**Weight:** 446 & 426 Tons

**Dimensions:**

110'L x 30'W x 66'H

**Equipment Used:** 36 axle lines of SPMTs, 2 power packs, deck spacers, weighing system, loading ramps, high volume water pumps and winches for barge securement

The Berard team loaded out several module packages for a local fabricator. Berard provided a turnkey service to the client which included weighing each module with our certified weighing system. The fabrication yard was filled with modules under construction which made for maneuvering the massive 446 ton loads through quite a few obstacles along their journey to the bulkhead. The team used 32 axle lines along with deck spacers to accommodate the 100' length and distribute the load evenly across the SPMTs. Both modules were loaded onto the deck barge and set down in their final position for the water transit portion of the trip. Thanks to our team for making another great load out!

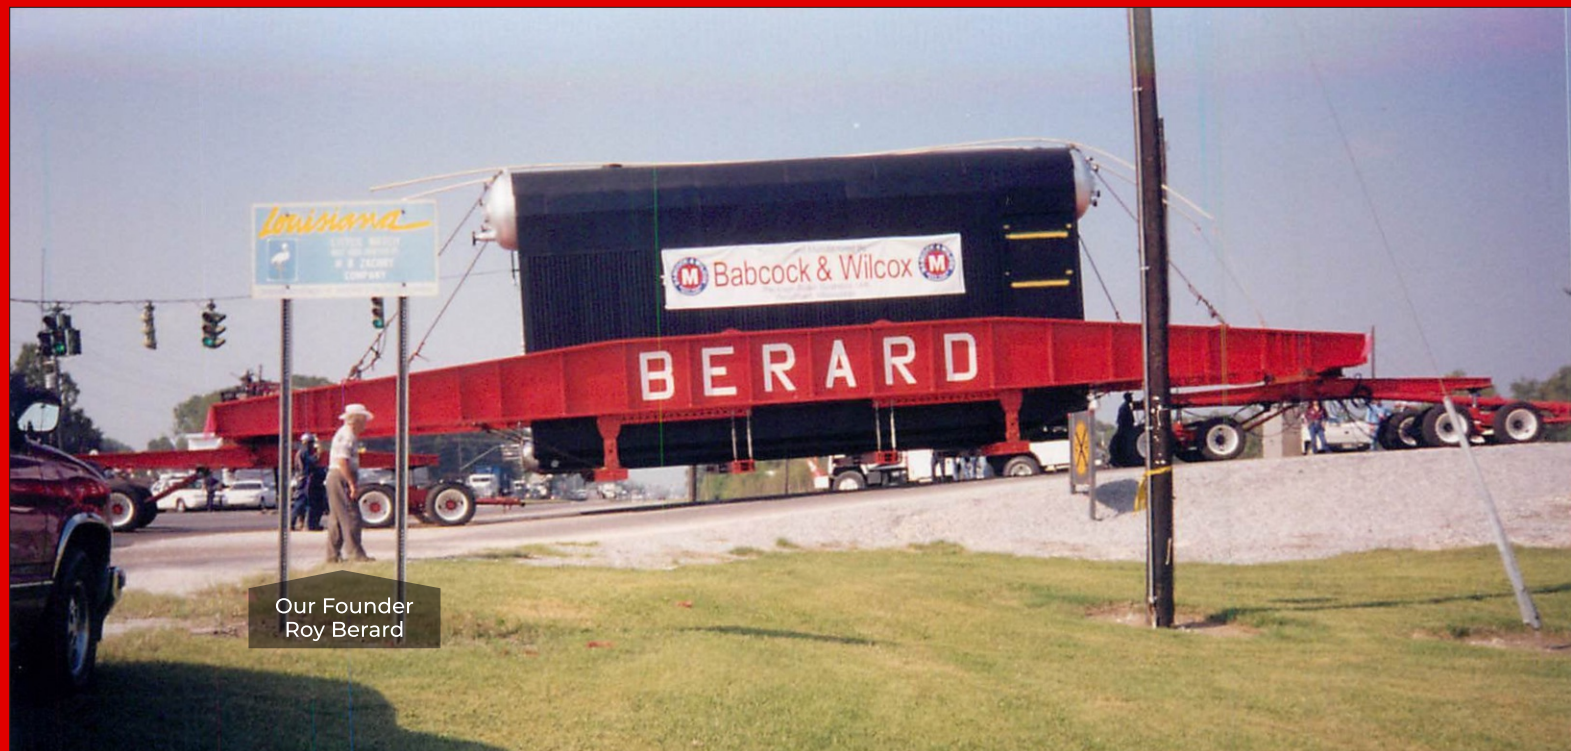

# A Look Back The Boiler Transport 1999 & 2020

The Berard team moved a 250,000 lb. boiler to a New Orleans area refinery in 1999, and again in 2020 when it reached the end of its lifespan. When delivered, it was the largest built by B&W's West Point, MS plant. We always enjoy these projects that have "historic" company significance. Our company founder, Roy Berard is in the photo below, watching as his sons and team handle the transport. Unfortunately, he was not around to witness the removal but was there in spirit.

Roy Berard

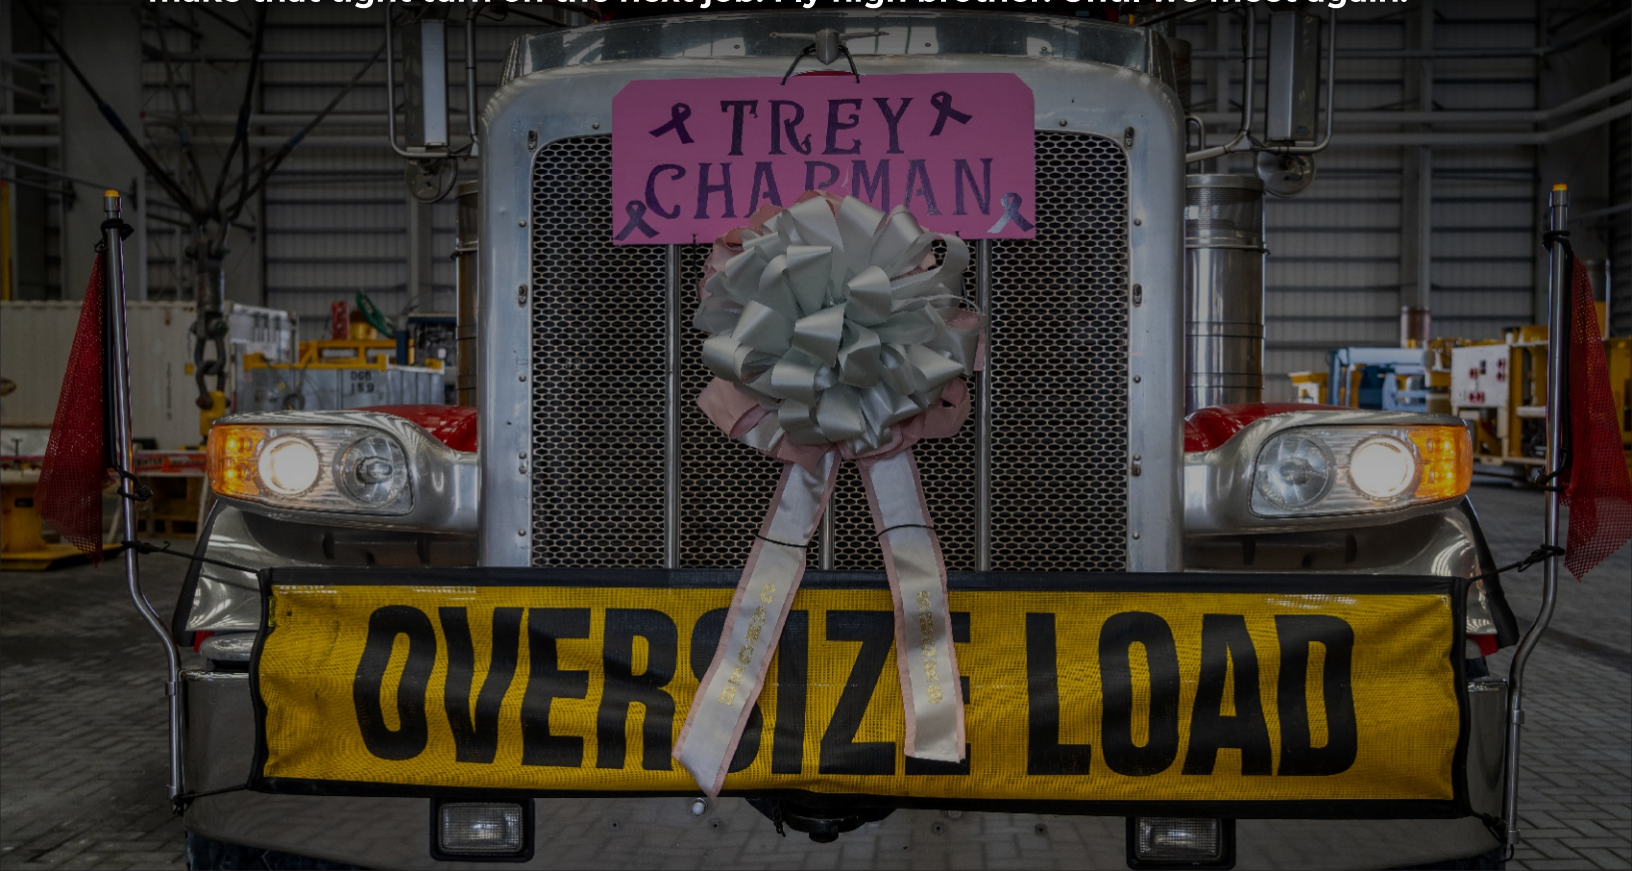

IN LOVING MEMORY

# Trey Chapman

7-28-1985 - 8-26-2020

It is with great sadness that we announce the passing of our teammate Trey Chapman. He was a great guy and was awesome at his job at Berard. When he was on the job we knew we were in good hands because we could count on him to keep us moving. All of us will surely miss his smile and great demeanor. He was more than an employee or a teammate to us, he was our brother. Our hearts are heavy today, and our hearts are with his family in this time of sorrow.

Trey, thank you for our time together, we will miss you brother. We will cherish our good times together and we know that you're up there watching over us. You will always be with us in spirit, and we can imagine you telling us how to make that tight turn on the next job. Fly high brother. Until we meet again.

# Storage Profile Amelia, LA

- ▶ 1,350 sq.ft. Office
- ▶ 5,000 sq.ft. Shop
- ▶ 275 ton Terex Crawler
