# East Coast Moves! STS Crane Load Out & Offload

## Job Specs

**Weight:** 1,321 Tons

**Dimensions:**

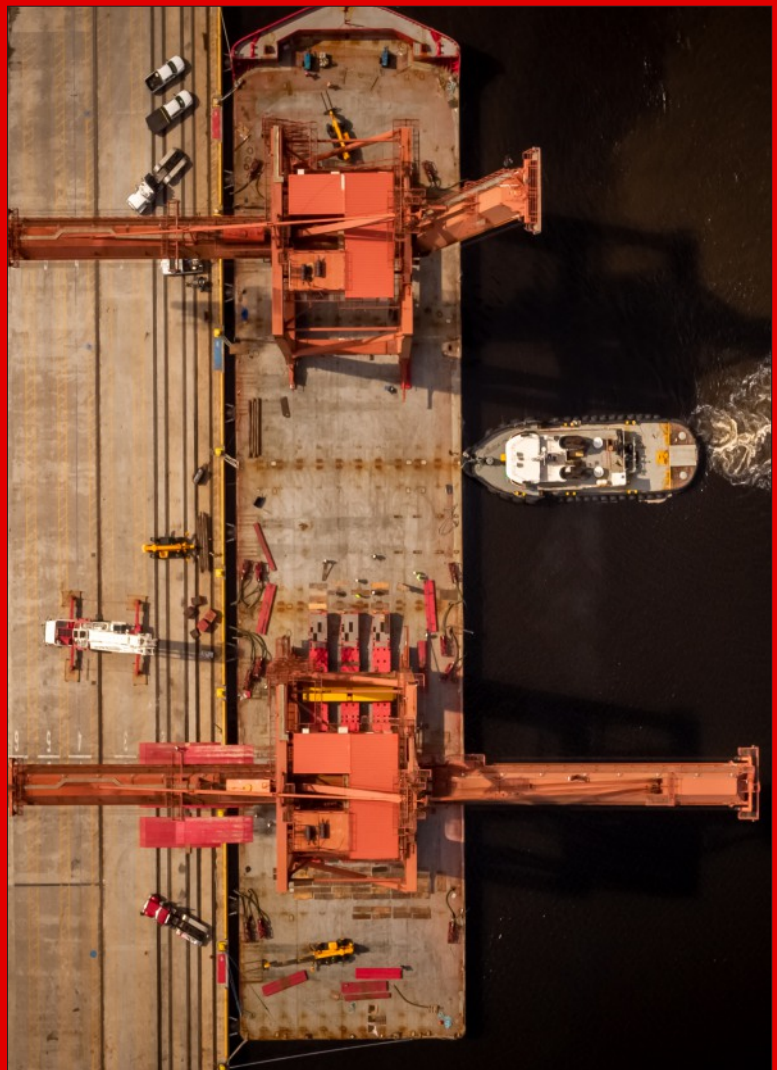

90'W x 334'L x 192' H

**Equipment Used:** 54 axle lines of SPMTs, 3 power packs, loading ramps, high volume water pumps, 402' x 100' deck barge and winch trucks

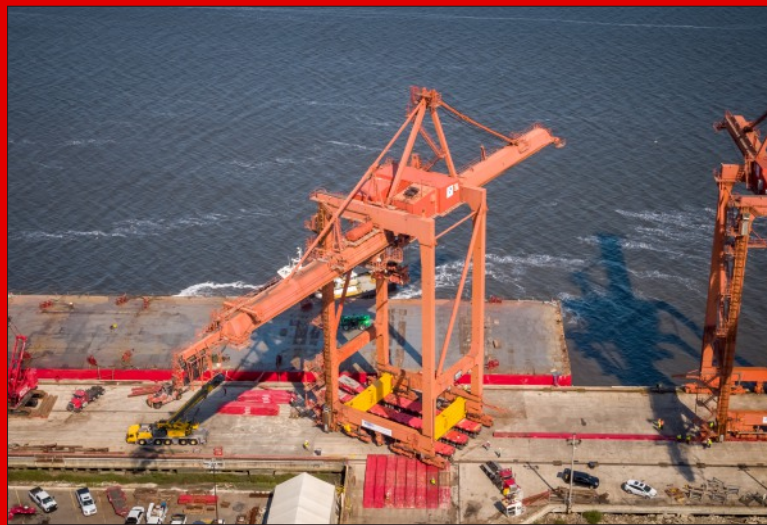

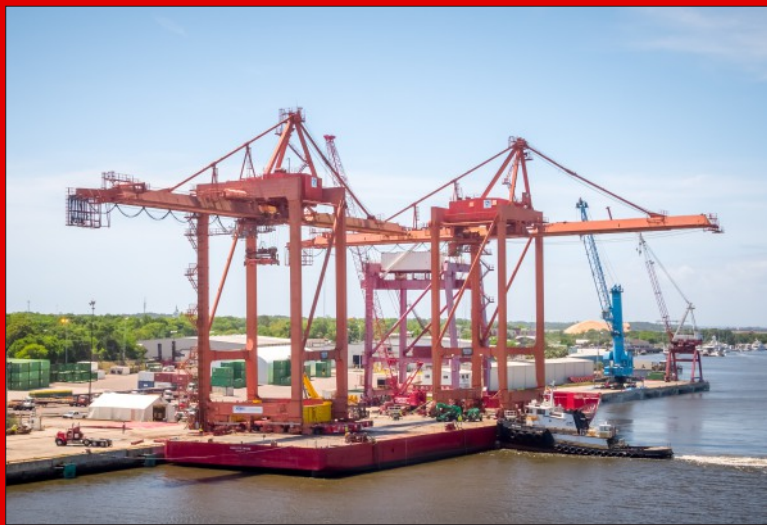

The Berard Team helped the Port of Fernandina Florida increase its capacity and attract more cargo ship traffic by delivering these two massive STS cranes. The cranes were side loaded onto a special purpose deck barge at the Port of Wilmington, North Carolina. The team lifted the cranes from the rail and rotated them 90 degrees to begin the loading process. Once the cranes were on the barge, they were again rotated in place then moved into position for sea fastening. After a 350 mile Atlantic transit, the cranes were again rotated in place to position for offload onto the dock. Berard utilized a series of loading ramps to reinforce a section of the dock as the load was moved to position for rotation and travel to the final rail location. The Berard team performed flawlessly and made this another one of our many STS crane delivery success stories!

# Same Day Delivery Vessel Transport & Gantry Offload

## Job Specs

**Weight:**  
190,000 lbs.

**Dimensions:**  
44'-7" L x 10' W x 12'-7" H

**Equipment Used:**  
Faymonville HighwayMAX 9  
axle tractor, 4 axle tractor  
400 ton gantry system

The Berard team recently transported this 190,000 lb. vessel from the Port of New Orleans to a Baton Rouge area refinery. Grossing 285,000 pounds and qualifying as a superload was no problem to permit using the using a 9 axle Faymonville HighwayMAX trailer and 4 axle Peterbilt tractor. Once arrived at the destination, Berard crews were waiting with a 400 ton gantry to lift from the truck to ground. The entire loading, transport, and offloading process was complete within 1 day.

# Helping Our Brother Trey Chapman Benefit

The Berard team and the community came together to help our brother Trey Chapman, who was diagnosed with cancer early last year. Trey was one of our over-the-road transport team members, but he was more like a brother to us. A benefit was being planned to help with medical expenses when covid came along and the event had to be canceled. Sadly, our brother Trey passed away. The team still wanted to do something and once the covid restrictions began to lift, a new event was planned. On May 22nd the event, which included a pastayala cookoff, bands, auctions, and a good time was held for our brother Trey. The event team worked tirelessly to make it all happen and a good time was had by all. We would like to thank everyone who attended, donated, and all who worked to put it together. Our brother Trey was looking down on us that day, and we know he had the biggest smile on his face.

IN LOVING MEMORY

**Trey Chapman**

# Wendy Hebert

AP | Administrative

Wendy Hebert joined the Berard team in February of 2018. She does a great job helping to keep our administrative and accounts payable department running smoothly. When asked about her time at Berard she commented, "This is a great company and I really enjoy working here". We enjoy her working here too and she's a great help to the team.

Wendy has two children, a daughter Asia and a son Zie. In her off time she loves to travel, working in her garden, and exercising.

# Happy Birthday!

**Happy Birthday to These Dedicated Team Members!**
