# On The Road Skid Package Transport

## Job Specs

### Weight:

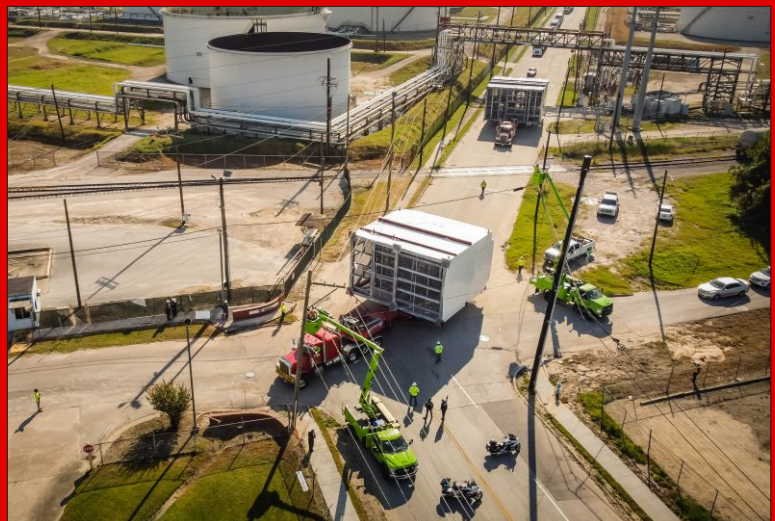

163,142 & 116,845 lbs.

### Dimensions:

42'L x 34'W x 24'H

**Equipment Used:** (2) 9 axle extendable semi trailers, prime movers and escort vehicles

The Berard team received this massive skid package from a floating crane barge at the Manchester Terminal for transport to a local chemical plant in Houston, Texas. The skids were transported upright and brought into position where they were laid horizontally by cranes for road transport. This was necessary to reduce the overall height to clear a 30' pipe rack along the route. The team worked closely with local authorities to ensure a safe and steady transport to the final destination. We would like to thank our team as well as all involved for making this another successful project.

# Lift It! Engine Lift, Load & Transport

## Job Specs

**Weight:** 147,000 lbs.

**Dimensions:** 30'L x 11'W

**Equipment Used:** 400 ton gantry system

Berard has always provided innovative solutions to clients with special project needs. This one such client needed (2) 7,000 hp horsepower diesel engines loaded and transported to the end user in Philadelphia, Pennsylvania. With limited space for a properly sized crane, the Berard team found a solution to get the massive engines loaded with our 400 ton gantry system. The team lifted the engines from ground level to a loading height so the transport trailer could be brought into position. Once on the trailer, securement began in preparation of the over the road transport phase of the project. Our gantry system is the perfect tool for clients with limited space or limited self lifting capabilities. Berard can help clients take on these larger projects with the confidence of a trusted heavy lift partner.

# Football Time! Bringing Home The Championship!

Loreauville Tigers 2nd/3rd Grade Champs 11-0 & Loreauville Volunteers 4<sup>th</sup>/5<sup>th</sup> Grade Champs 11-0

When it comes to giving back to our youth it goes without saying Berard is proudly at the forefront. Our COO Braedon Berard coached his son Aydens flag football team this football season and went undefeated winning their fourth consecutive league championship.

To add to this special season there were too many kids as per league rules for all of the kids to play on one team so Braedon and his team of coaches split the Loreauville Elementary team into two aged group teams and both teams ended up with 11-0 records and taking home the hardware!!!

What makes all of this even more impressive is these guys were the only teams from one school competing in a very competitive Lafayette FNA league sponsored by Drew Brees! Berard would like to congratulate these young men and wish them the very best in the future! Geaux Team B!!!!

# HAPPY NEW YEAR!

*From all of us at  
The Berard Team!*

## MOVING FORWARD INTO 2022

Our business has always been about moving. As we progress into the new year, we move forward with the same core values we've had from the very beginning—dedication to our clients by providing the best quality service of any company in our field, and having the most well rounded and skilled team of experts second to none. As with every previous year we reflect back on the successes we've achieved, but we also look forward to continuing that success. We are truly a blessed company, made possible by all of you. May you, your company, and your families have a blessed and prosperous 2022.
