On The Road

B1 Bomber Transport

Texas To Kansas

Job Specs

Weight: 90,000 lbs

Dimensions:
130'L x 29'W x 15'-9"H

Equipment Used:
4 axle drop deck, 6 axle Trail King steerable dolly, double turntables, escort & support vehicles

It's not everyday you see something like this going down the highway. The Berard team had the honor of transporting another B1 Bomber from Abilene, Texas to Wichita, Kansas. This makes the third B1 the team has moved in recent years. The team transported the impressive cargo 761 miles through many small towns along the route with several tight turns to tackle. The trailer configuration really performed well and made those obstacles much easier to tackle. Many people lined the streets of the small towns we passed through and we surely enjoyed seeing the smiles on all of the kid's faces as we passed by. Social media was a buzz with videos of the move from people and media outlets.

Weather conditions were less than favorable with rain and cold temps nearly everyday of the trip but the team pressed on and the B1 was delivered safely in only four days thanks to our dedicated over the road transport team. Thanks go out to all of our team members and to the escort officers in Texas, Oklahoma and Kansas for their assistance with the move.

On The Road Electrical Building Transports

Job Specs

Weight:

207,008 lbs

263,004 lbs

Dimensions:

111'L x 18'-7"W x 19'H

112'L x 18'-7"W x 19'H

Equipment Used:

12 axle dual lane with deck spacer, 16 axle low deck Module Max trailer, (2- 8 axle with deck spacer), 4 prime movers and support vehicles

The Berard team recently transported two electrical buildings simultaneously from Huffman, Texas to Kermit, Texas. The team transported the cargo a total of 804 miles on our 12 axle dual lane and 8 axle module max trailers via state highways and county roads. The maneuverability of these trailers were a great choice, making navigating the many tight turns along the route with ease. Berard has transported quite a few of these buildings over the years for this client and they have been very satisfied with our dependable and timely service. Our team did a great job on this project and we thank them for their dedication to the job and our company!

Jesse Pelous

Rigger

Joining the team in October of 2022, Jesse Pelous serves as a member of our talented rigging team. He's eager to learn all he can and really likes his work. "I enjoy the uniqueness and ever changing complexity of our day to day jobs." says Jesse. Jesse is the son of Berard's senior project manager Mark Pelous and enjoys working alongside his dad on many of our bigger projects.

"I really like the fact that Berard is a family company and everyone works as a cohesive unit, just as a family does." commented Jesse.

In his off time, Jesse enjoys playing golf, hunting and being outdoors.
