The Mega Transport Experts

East Coast Move JaxPort STS Crane Transport Project

Job Specs

Weight:

1,110 Tons

Dimensions:

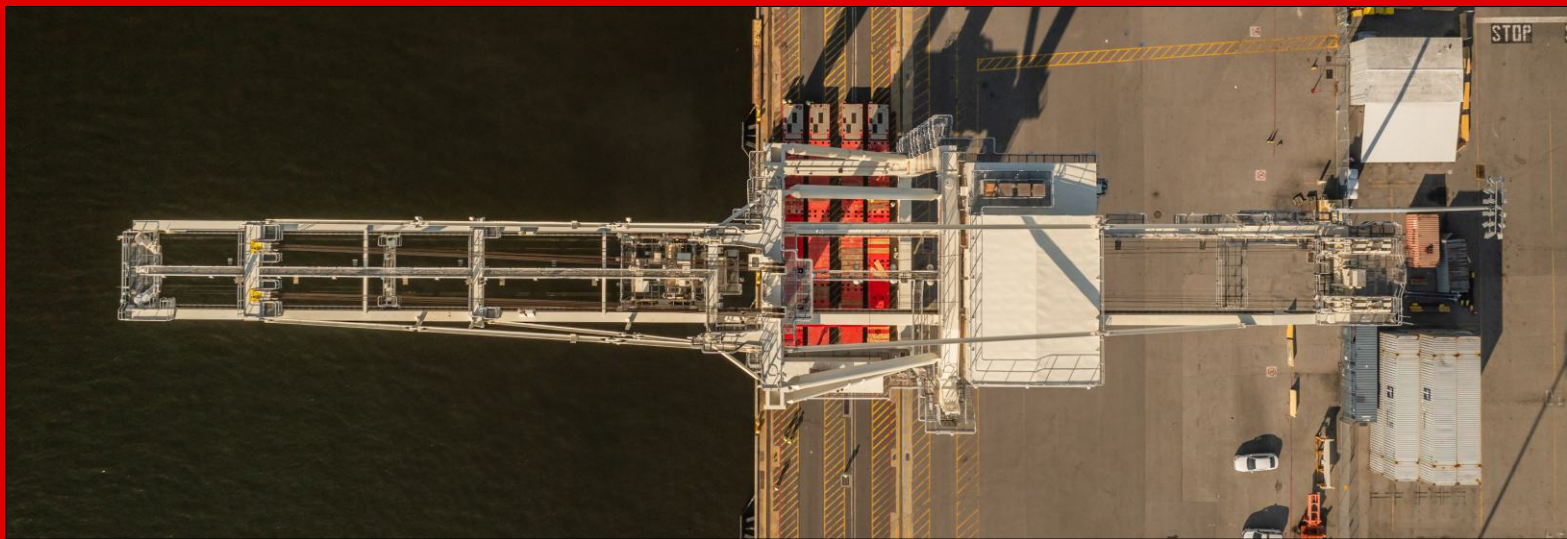

260'L x 104'W

Equipment Used:

72 axle lines of SPMTs, 4 power packs, Berard MBS (Modular Beam System) and crane mats

The Berard Modular Beam System (MBS) keeps another port STS crane project on schedule. The team traveled to Jacksonville, Florida to put the finishing touches on a STS crane refurbishment project at JaxPort. The MBS system can be tailored to accommodate many rail gauge widths, proving to be quite the valuable and versatile asset. Our team setup the system in a short amount of time and was ready to make a quick transport to get the 1,110 ton STS crane back to rail and back in service. The crane was lifted and transported from the refurbishment area and onto the main pier on 72 axle lines of SPMTs. The crane was then rotated and moved into position then aligned with the rails and lowered. This was another success story for our MBS System.

The Shipyard Module Load Out

Job Specs

Weight:

318,920 lbs.

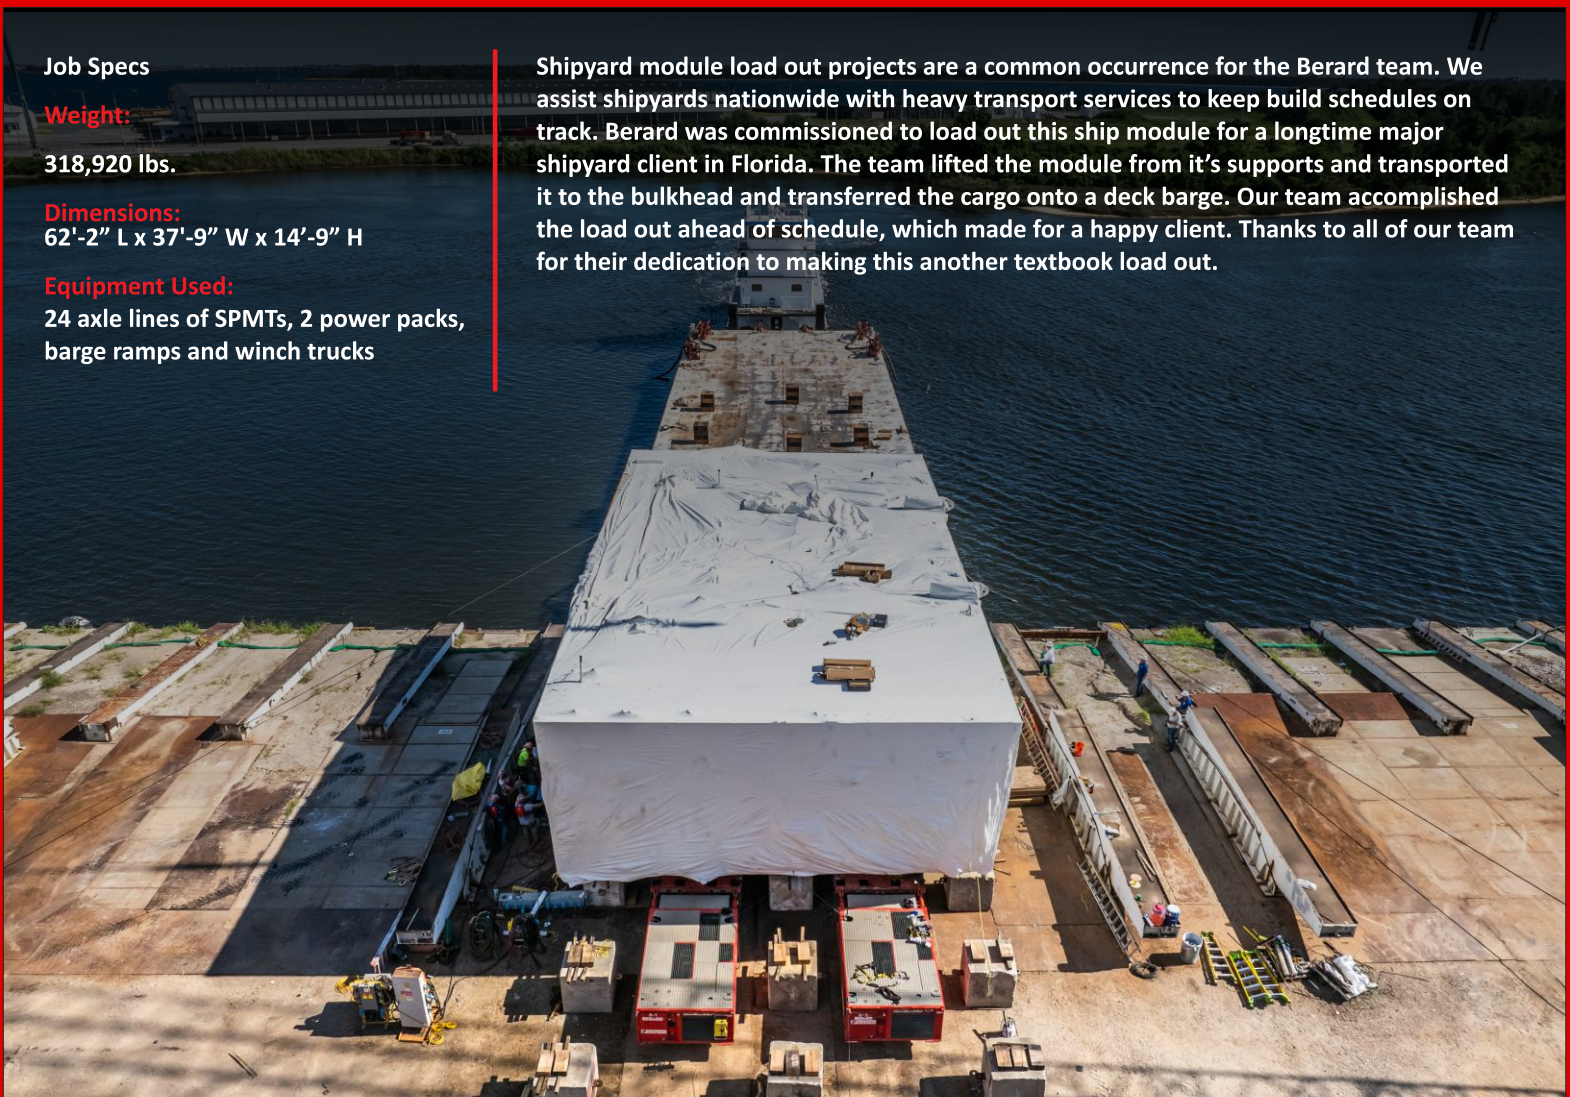

Dimensions:

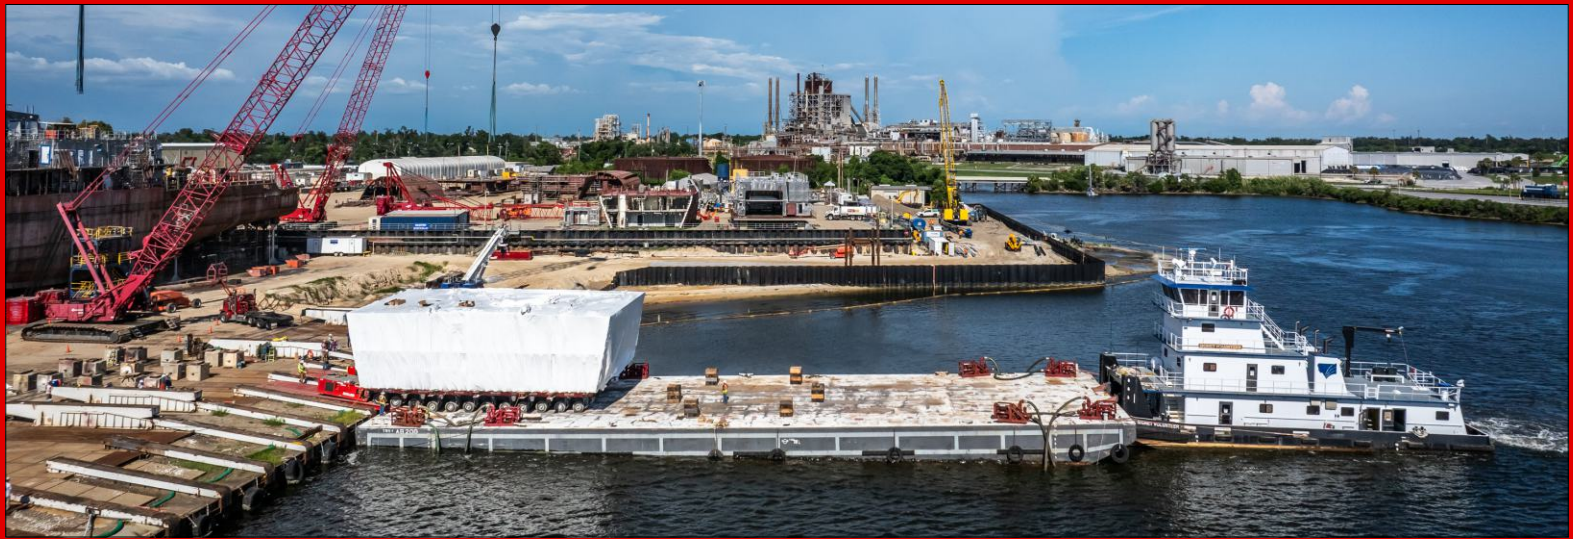

62'-2" L x 37'-9" W x 14'-9" H

Equipment Used:

24 axle lines of SPMTs, 2 power packs, barge ramps and winch trucks

Shipyard module load out projects are a common occurrence for the Berard team. We assist shipyards nationwide with heavy transport services to keep build schedules on track. Berard was commissioned to load out this ship module for a longtime major shipyard client in Florida. The team lifted the module from its supports and transported it to the bulkhead and transferred the cargo onto a deck barge. Our team accomplished the load out ahead of schedule, which made for a happy client. Thanks to all of our team for their dedication to making this another textbook load out.

In The Community LHS Homecoming Parade

Berard has always been a big supporter of our Loreauville High School and our Loreauville Tigers. Each year our team takes part in the annual homecoming parade and this year's parade was another great one. We love giving back to our community and our youth. Geaux Tigers!

Gumbo Cookoff Report! World Championship Gumbo Cookoff

The Berard team had a great time competing in the World Championship Gumbo Cookoff in New Iberia, Louisiana. The team cooked up some delicious chicken & sausage gumbo which was well liked by everyone. We did pull a win in the competition by being awarded Best Booth Skit & Decoration. Competing in the event takes a lot of preparation, hard work and dedication and our thanks go out to all of our team members who worked hard to put this together again. Everyone had a great time and we look forward to next year's event!
