Hawaii Bound! P-82 Crane Load Out

Job Specs

Weight:

1,000 Tons

Dimensions:

197'L x 45' W x 155'H

Equipment Used:

40 axle lines of SPMTs, 2 power packs, Berard MBS (Modular Beam System), 260' x 72'W deck barge, loading ramps, crane mats and winch trucks

The Berard team is tackling another big blue crane load out in Wisconsin. P-82 is headed to Hawaii.

The crane originated in Manitowoc, Wisconsin where the team loaded out, secured and marine transported this 1,000 ton crane destined for Honolulu, Hawaii where it will be offloaded to rail. Berard engineers developed a turnkey load out and ballast plan as well as the sea-fastening design and installation for the marine transit which includes sailing through the Panama Canal on its way to the final destination.

The Berard team provided a turnkey solution for this project. Our MBS (Modular Beam System) was deployed on this project and proved itself once again to be the right tool for the job. Thanks go out to our incredible team members who went above and beyond to ensure that P-82 arrives safe and sound in the Aloha state.

Load Out Cold Box Transport & Load Out Project

Job Specs

Weight:
489 Tons

Dimensions:
45'-11" L x 48'-4" W x 31'-6" H

Equipment Used:
20 axle lines of Scheuerle SPMTs, 2 power packs, barge ramps and winch trucks

The Berard team made quick work of four massive 489-ton cold boxes, showcasing the efficiency and precision that have become a hallmark of our cold-box operations over the years. With a long track record of keeping these projects on schedule, the crew expertly loaded each unit onto 20 axle lines of SPMTs and navigated them through the client's fabrication yard to the bulkhead. There, the cold boxes were smoothly rolled onto a deck barge before being sea-fastened for marine transport to their final destination. It was another timely, safe, and flawlessly executed cold-box project—exactly the level of performance Berard's clients have come to rely on.

Happy Retirement! Russell Castille

After 16 years of dedicated service, Berard proudly congratulates Russell Castille on his well-earned retirement. As head mechanic and head of maintenance, Russell was the steady force that kept every piece of equipment running smoothly and every project moving forward. His expertise, work ethic, and commitment to doing the job right made him an essential part of Berard's success, and his impact will be felt for years to come. We thank Russell for his outstanding service and wish him all the best as he begins this next chapter.
